Great Program with tips for assessment and interventions!

This is a great resource and to make people aware of how to help a survivor. As a domestic violence survivor, I am happy this type of lecture is given  
marissa is very obviously a light to this dark world. It was awesome to have her  
as a speaker at our school! Her presentation was easy to listen to and her  
passion for her work is undeniable. She made me feel much more confident  
about how to address DV victims and most importantly she gave us specific  
tools to have on hand and wrote out our toolkits including specific information to  
have to give to survivors. We often are being told about the general steps to  
follow such as giving hotline numbers, acknowledging the victim's trauma, giving  
resources, etc but Marissa took it to a new level by mapping out our actual  
toolkit with us and even telling us specific things we can say in situations with  
survivors that would comfort and not offend them since many nurses struggle  
with knowing what is right and wrong to say. I would be delighted to hear  
Marissa again!

I don't know

You were great. Thanks for being with us.

I learned a lot from her. Sexual assault is a big thing in our culture. Especially, when a girl pregnant for whatever reason, they just let him marry her and I hate that culture so much. The parents only care about them and not the kids. They do not want to lose face in front of people.

From what I was able to see, she is a very strong person and confident is what she does. She's very kind and you can tell how much she cares that people should see these things and know what to be

My ex had a lot of yellow and red flags that I didn't understand were ones until I came to this presentation. Marissa has really helped me to understand what I need to look out for in the future and Marissa came to our school and did an amazing job helping us recognize red flags and how to notice unhealthy behavior.

Marissa was a fantastic speaker who brought a world of fantastic information to us, in a gripping and easy to listen to presentation!

I believe Marissa is such an inviting and informative speaker, she creates an inviting and encouraging atmosphere to learn and stay safe.

The issue of domestic violence is extremely prevalent. Education gives you the power to effect change.

Marissa's presentation was great! I hope to see her back at my university again.

I really believe Marissa could change the way people look at this topic. It's very hard, especially listening to it when you have been through the event, but it's worth it and it helps to know you're not. Marissa was a very well-spoken presenter who delivered a copious amount of information on the broad topic of abuse.

**Marissa opened our eyes to an experience lived by many women. The program integrated our passion for nursing with our passion for helping our patients. I'm excited to utilize this information to help my patients in the future**

Marissa was very helpful and willing to answer any questions you would have.

She was engaging and made this topic as comfortable as possible to listen about.

I liked the writing activities

I loved how she made me feel less alone because I have been through some of the same things she has and writing about it I think will make me feel so much better

She keeps students engaged and helps us really understand and break down important topics

I related to this a lot and I bet it can help a lot of others around me.

She's amazing! Super down to earth and relatable. I spent extra time with her outside of the presentation and she was so easy to get along with and so kind. One of my favorite guests so far!!!!!!

I really liked how open she is and how personal she was when she talked with our small groups. She really made an impact.

I liked how there was an activity applied with the lesson.

Mizzou

This is a topic not discussed often and it should be, it's more important than people realize.

The way that Marissa makes it feel okay to establish boundaries without there being an issue.

Her examples she gave and advice she gave was helpful

I just like how it made me realize some things.

Bring her in to raise awareness on negative actions and attitudes and learn how to handle them!

I thought it was very informative on a very important toipc. People struggle with these topics so it is good to learn and discuss in a safe space, expecially in college.

I loved that it is very educational and easy to learn. Everyone needs to learn or be reminded of their boundaries and she did very well at it and that's why she should bring it to other schools, so others are aware of boundaries and hopefully set them for themselves.

I really liked how she gave multiple examples and made it easier for boundaries to come to mind.

It was really insightful and useful information

I like how we had group activities to do! It was hands on but not at the same time! Very active and kept us involved!

I liked learning useful information to keep myself safe!

Her experiences and learning how it's not taken as serious.

I loved the group discussions and stats to back up the information!

It's a good learning event to give more in-depth knowledge

I love her energy and interactions with the audience, she was clear with her words and also her presentation on what she was getting across.

She has authentic information and personal experience that help he audience engage more

The stories knowing what to be aware of and the interactive research

It should, it's important and it was nice to hear it from a victim because she got it.

I really liked how she was interactive and made us think about stalking in a different way.

I loved everything about it

She was enthusiastic and excited to get engaged with the school

She was very encouraging

Very personable, fun to attend, and makes a usually dreary topic into something that is a pleasure to

She is super energetic and insightful. Her presentations are very well done and easy to understand. I

always have a great time and learn a lot when I come to one.

Learning about different types of boundaries and being able to realize that not everyone has the same

ones as you.

The presentation focused on self respect and I liked some of the ideas (psychological ideas)

Giving great advice on how to communicate about boundaries and how to communicate with my

The topic of it

I loved the interactions, I do think that other campuses would benefit from this talk

It was super informative and will help me provide advice to residents on how to stay safe in social

I liked the energy she presented and the fun she brought to it

I liked how engaging Marissa was. She had a great energy throughout the whole presentation. She had

good discussion topics that let us the listeners be able to critically think and respond to. She kept it

relevant and beign open and honest. I think other schools should bring Marissa to their campus

because she connects great with the students and is able to spread awareness and educate the future

I loved how engaging and entertaining the speaker was. Marissa had a friendly yet professional

approach to a very sensitive topic and allowed the conversations to spark.

She incorporated memes etc that cater to our interests as a new generation. Never lost interest once.

Crowd pleaser for sure.

She gave a good speech

It was very funny and interactive, and it would be a good presentation for bigger groups

Marissa was awesome!

She was very well versed on the topic and had very good times and tricks about college living and

I liked how engaging and relatable Marissa was. I also feel like th etips were current and very helpful to

my everyday life.

It should be presented mor in school to give more

She's a great personality and carries her story so well. I think she did an amazing job

I enjoyed bringing light to very difficult topics. Many people don't know of or have the resources to get

out of abusive relationships. Seeing a presentation like this can help with progressing and overcoming

an abusive relationship.

The presentation and the information.

I liked all the tips she gave us to help those in need. I liked the reasoning behind it all and the

explanatin of why survivors go back to their abusers. I really enjoyed this speaking event and I will use

it in my field and in my social life.

I liked how you incorporated some humor and seriousness in the topic

They should bring Marissa to campus because this is a topic that can be hard to talk about. It also allows people who may be in need of help to feel comfortable to reach out.

Very easy to follow and relatable examples

I liked her memes. Not easy to see on zoom if it has an effect but I definitely smiled at them! And I learned a lot about what different red flags could be, not only in romantic relationships, and also yellow flags which I have never thought about before.

I really liked that you related to where the students are at and the TV shows and letting them really think about the healthy and unhealthy relationships and what they are watching!!

I like how personable she was! Truly made us feel comfortable and seen. Very knowledgeable and I will definitely be ordering a book!

It was a good presentation and well put together

All students are just beginning their journey as an adult, they need to learn that their boundaries are

Good information and thoughtful, polished presentation

She is very informational and motivated.

It was an engaging and informative presentation. I liked that there was a lot of discussion versus

All of the program was great

Marissa was poignant and personal in dealing with a difficult topic. She was always cognizant of the audience and the possibility of a trauma response. Discussions were fun and laughter was abundant.

I liked the comfortability of it, the openness, the working in small groups on such tough topics. Thank you for sharing your story as well. I know so many go into the field and have a story.
